<i>Comment: Content not what I need right now.</i>	
<u>Saturday Concurrent Session #4 - title: Team Time</u>	
2 respondents	
Value of content presented:	5.0
Presenter's delivery of content:	5.0
<i>Comment: It's great to have time to debrief!</i>	

5. Overall comments/suggestions:

- SOAR - more interactive - show in action or hands on. Time got cut in Friday night breakout session. Perhaps indicate or highlight different sessions for schools at different levels. Some people got speakers off topic because they didn't have the background knowledge. Breakout sessions much more interesting and helpful. Dr. Eaker is a great speaker but I gained information to apply in classroom from the sessions. However, the last talk was very inspirational. Event went seamlessly - excellent organization.
- In sessions 2-5 there was not enough seating
- White River is a beautiful and this was a wonderful conference. Thanks!
- White River MS principal was excellent. The man from Utah was super. The principal from Tacoma was offensive in her description of the demographics of the district.
- Great workshop, helpful and inspiring! Great food.
- Very helpful. Gave me good direction. I feel more comfortable with the process.
- Very informational. Great job presenting overwhelming material in a non-threatening way.
- This seminar was very informative and the information provided and presented by the speakers was very resourceful and helpful. Keep it up WRSD!
- The breakout sessions were great. The group session was lacking. It seemed impractical and the real value was in the breakout sessions.
- Excited about what's going on - Learning... it's what we do!
- Excellent choices! Very high quality presenters and presentations. Excellent!!
- No suggestions for improvement.

- Wow! Thank you.
- A campus map would be useful. Sessions with handouts were more helpful for visual people and remembering when we go back to school. Many rooms were too hot and packed. 15 minute transitions between sessions were great.
- Handouts on all classes. The people that made copies of their powerpoints allowed us to really listen to their presentations. Beautiful building but got hot toward end. Dinner and lunch was great... so were all the snacks.
- Bravo! Thanks for doing this. 😊
- The session I was in for Session #3 ran over. When I got to the session I wanted for Session #4, the room was overpacked.
- Please have bigger rooms and hold people to honor the schedule.
- It was beneficial to hear the same terminology and concepts being implemented in White River as well as our district. Each presenter presented from a little different perspective. Repetition will help me to learn, understand and use it myself.
- It was great to realize that our district is on the right track.
