

Dale Robert Jansons

Richland High School, 2005

Columbia Basin College, 2006

Undergraduate from Central Washington University in Biology

Masters of Science in Biology from Central Washington University

While at CWU, Dale gave educational tours featuring reptiles, insects, and birds to students of multiple ages. He participated in the K-12 Watershed Program, Yakima WATERS, through NSF. His Masters work was to find novel pathogens of aquatic invertebrates using environmental genomics with special attention given to mosquitoes. At the REACH Museum Dale is an Educational Coordinator and is currently focusing on the new Courses and Tributaries curriculum.
