

## **Greg Kelly**

Greg Kelly teaches mathematics at Hanford High School in Richland, Washington. He has 33 years of math teaching experience, at every level from eighth grade math to multivariable calculus. His calculus PowerPoint lectures are used by teachers around the country. Last year he challenged himself to restructure his Algebra 2 course so that students would have success without doing homework. Greg has been providing gradebook training to Richland teachers since 2000. In 2009 he wrote the PowerTeacher manual used by teachers in the Richland School District.
