

Jennifer Judkins

Jennifer Judkins has worked in mathematics education for over 15 years teaching at the middle school, high school, community college and university level and has served as a mathematics specialist at the ESD 112 and as an assessment specialist at OSPI. She is currently the high school lead for mathematics assessment for the state and has worked extensively with Smarter Balanced in all areas of the assessment. She is pursuing her doctoral degree in Educational Leadership at UW Tacoma with focus on How to Support Teachers to Prepare Students for the Smarter Balanced Assessments.
