

## **Randall T. Spaur**

Randall Spaur is a Career and Technical Education teacher (CTE) at Chief Joseph middle school in Richland. Mr. Spaur teaches basic computer applications, Digttools (digital communication), and pre-engineering at the middle school level. He has been teaching computer technology for 6 years and has learned to engage students in productivity with technology, and not just consumption of technology. Some of the work his students have done are photo editing, movie making, audio manipulation, video game design, computer aided drafting, and desktop publishing. He is a member of Washington Association for Career and Technical Education (WA-ACTE) and Washington Industrial Technology Education Association (WITEA) and uses the knowledge gained from these conferences to modify the use of technology in his classroom. Along with being a teacher he is also the yearbook advisor and an AVID co-coordinator for Chief Joseph middle school.
